jy19-d&ds JAMES W. RATCLIFFE, Auct. FALL EXAMINATIONS

ANNOUNCEMENT BY THE CIVIL SERVICE COMMISSION.

Residents of the District Barred From Appointment to Certain Positions -General Information.

The civil service commission has received proofs of a supplement to its manual of examinations now in use. No new manual revised to the close of the past fiscal year is to be issued, and this bulletin is intended to comprise all the new information which would be included in such a revised manual.

Fall Examinations.

Owing to the insufficiency of the appropriation for an adequate force of examiners and the expenses incident to holding examinations, the only examinations which will be held this fall, unless the needs of the service require otherwise, are those to fill the following positions:

Aid, coast and geodetic survey; apprentice, architectural draftsman; assistant examiner, patent office; assistant topographer; bookbinder; bookkeeper, departmental ser-vice; bookkeeper, Philippine service; civil and electrical engineer; clerk promotion; compositor; computer, supervising architect's office; copyist topographic draftsman; department assistant, Philippine service; electrical engineer and draftsman; electrotype finisher, electrotype molder, elevator conductor, farmer, farmer with knowledge of irrigation, fish culturist, heating and ventilating draftsman, internal revenue, junior architectural draftsman, junior civil engi-neer, kindergarten teacher, law clerk, manual training teacher, meat inspector, mechanical and electrical engineer, messenger, messenger boy, observer, physician, press feeder, pressman, railway mail clerk, skilled laborer, stenographer, stenographer and typewriter; stenographer-typewriter-junior translator, Philippine service; stenographer-typewriter-translator, Philippine service; structural steel draftsman, superintendent construction, teacher; draftsman, land office and departmental services; translator, departmental service; translator, Philippine service; trained nurse, typewriter, watchman.

The District Barred.

Applications will not be received from legal residents of the District of Columbia, Maryland and Virginia for the bookkeeper, clerk, messenger and watchman examinations unless such applicants are allowed preference under section 1754, Revised Statutes.

All examinations for the positions indicated in the above two paragraphs are to occur in Washington October 21. The other Two-Story and Attic
Frame Dwelling, No. 467
N Street N.W., also 2
Frame Houses and Brick
Stable in 1927 examination dates for this city follow: Proelectrotype finisher, press feeder, pressman, begin September 25. Apprentice, elevator conductor, messenger, messenger boy, skilled laborer, watchman, begin Septem-

> Of General Interest. The following statements as to appoint-

ments and prospective examinations are of

"It has been the practice of the public printer not to appoint men to the position

examination must be at least 5 feet 6 shoes, and must weigh at least 135 pounds in ordinary clothing, without hat or over-

After the examinations to be held this fall the following named examinations will be held only when eligibles are needed and will be duly announced: Apprentice, skilled laborer, messenger, messenger boy, watchman, trained nurse. After the examinations to be held this fall applications the examinations mentioned in this paragraph will not be received until such examinations are announced.
"Special attention is invited to the fact

that the scheduled examinations, which will be held at various other places throughout the United States during the fall of 1902, will also be held at Honolulu and Hilo. Hawaii, and at San Juan and Ponce. Porto Rico.

wait and Porto Rico will be made upon the same basis as appointments to similar positions in the states and other territories. "Examinations for local positions in the post office, custom house and internal revenue services in Hawall and Porto Rico will be held only in those territories. Persons who desire to be examined should apply to the secretary of the civil service board of examiners at the post office at San Juan. Porto Rico, or at the custom

house at Honolulu for application blanks and examination information.

"At the request of the Philippine civil will be held during the fall of 1902 for positions in the Philippine service: Book-keeper; age limit, eighteen to forty years. Department assistant; age limit, eighteen years or over. Stenographer-typewriter-junior translator (Spanish); age limit, eighteen to forty years. Stenographer-typewriter-translator (Spanish); age limit, elghteen to forty years. Translator (Spanish);

age limit, eighteen to forty years.
"The stenographer and typewriter examinations will be given only in connection with the translator and junior translator examinations, and those who fail in Spanentered on the stenographer or typewriter register of eligibles. Persons having no knowledge of Spanish will not be examined

The supplement contains two tables, one showing the apportionment of appointments among the several states and territories and the other showing the apportionment of appointments to the government printing office. All the information in these two tables has been exhaustively discussed in earlier issues of The Star.

DEEDS TO MACKAY'S ESTATE. Filed in San Francisco Yesterday-

Property in England. A special to the New York World from San Francisco, Cal., yesterday says: John W. Mackay left deeds to all his San Francisco real estate.

These documents, which were drawn up by Garret McEnerny, were filed for record this afternoon by James L. Flood. Mr. Mackay's local holdings consisted of a half interest in the Grand Opera property,

a half interest in the Nevada block and the southeast corner of Market and 4th streets. The other half of the first two properties belongs to James L. Flood. All of Mr. Mackay's interest is deeded, share and share like, to his wife and his

son Clarence Mackay.

The deeds to the half of the Nevada block and to the whole of the property at 4th and Market streets were made in December, 1900. The deed to the half of the Grand

disposition made of the San Francisco property was only part of a plan to keep his estate out of the course.

A dispatch from London says the English government will try to collect the death tax of 8 per cent on all the property bequeathed

by Mr. Mackay.
P. H. Lannan, an old friend of Mr. Mackay, in an interview in Salt Lake City, said: "His greatest traits were his unostentatious generosity and charity and his wonderful Americanism. Considering the latter, it seems an irony of fate that he should have died in a foreign land. His charities I know amounted to more than a quarter of a million dellar. of a million dollars a year, and so modest ly were they given that no one, excepting possibly his private secretary, knew the beneficiaries."

ANTI-IMPERIALISTS ACTIVE.

Meeting to Be Held at Boltons Landing, Lake George.

A dispatch from Boston yesterday says: number of the anti-imperialists of this city, including Charles Francis Adams, Moorefield Storey and Julian Codman, left tonight for Boltons Landing, Lake George, to join other leaders of this movement at a meeting of the special committee appointed last spring to investigate affairs in the Philippines and secure the publicity of the facts. The meeting will be held at the home of Carl Schurz, and Herbert Weish of Philadelphia, and many of the western leaders in the movement also will be present. The object of the meeting is to canvass the investigation that has been made, and discuss the present situation.

Inasmuch as Andrew Carnegie, the chairman of the committee, is now in Europe, a emporary chairman will be chosen, but the entire proceedings will be communicated to Mr. Carnegie by cable. It has been the be-lief that the anti-imperialist movement was lying out, but these leaders say that they are determined to press the issue with more vigor than ever. It is possible at the con-clusion of the meeting a statement of facts developed will be sent to President Roose-

PHILADELPHIA LEDGER SOLD. Adolph S. Ochs of New York the Purchaser.

A dispatch from Philadelphia yesterday savs:

The Philadelphia Public Ledger was to day purchased by Adolph S. Ochs from George W. Childs Drexel and the Drexel estate, and possession was at once given Mr. Ochs. The purchase includes all the Public Ledger estate, comprising about half a block of improved property on Chestnut and 6th street, facing Independence Hall. The price paid is not made public, but it is stated on good authority that over two and one-quarter million dollars are involved in the transaction. Mr. Ochs has no associates in the transaction, except that a substantial interest has been acquired by James M. Beck of Philadelphia, who represented the purchaser in the negotiations. There is no underwriting, and, with the exception of Mr. Beck's interest, Mr. Ochs is sole owner.

The new owner says there will be no rad ical changes in the appearance or policy of the Public Ledger. Mr. Ochs, who is the principal owner of the New York Times, Philadelphia Times and Chattanooga Times, when asked if the Philadelphia Times, which is now being successfully conducted by his brother, George W. Ochs, is to be consolidated with the Public Ledger, re-

"Not at present; perhaps not at all." The Philadelphia Public Ledger is one of the oldest and most prosperous newspapers in America. It was established in 1836; from 1864 to 1894 it was conducted by George W. Childs. It passed to the owner-ship of T. A. Drexel when Mr. Childs died, and has been conducted up to the day of the sale by George W. Childs Drexel, one of the trustees of the estate.

Mr. Och's newspapers are all independent in politics, and stand for the higher ideals of journalism. The Public Ledger was notably so conducted by George W. Childs and by his successor and godson, George W. Childs Drexel; consequently the changes promptly made in the style and character of the Philadelphia Times when its ownership changed a year ago are not necessary to the Public Ledger. L. Clarke Davis will continue as editor, and John Norris of the New York Times will for the present act as business manager.

In connection with the above announce-ment, Mr. George W. Childs Drexel authorizes the following statement:
"The property has never been in any way offered for sale. As it is now and has been for many years very profitable, the trustees never even considered the question of a ossible sale until overtures were made Mr. Ochs. They were impressed with the fact that the dignity and success with which Mr. Ochs had conducted his other newspaper enterprises gave assurance hat the property would be safe in his keep-ing and in no way lose its character and tions of Philadelphia.

"The subsequent negotiations were conducted on both sides with candor and fairness, and a result reached which was mutually satisfactory. The property passes to the purchaser with the cordial good will of the trustees and heirs of the late Anthony J. Drexel."

CHARGED WITH TAKING \$250,000. William S. Byers Under Arrest at

Greensburg, Pa.

A dispatch from Greensburg, Pa., yesterday says: The climax in the alleged robbery of nearly a quarter of a million dollars in money and bonds from the venerable Jacob Byers was reached here this evening, when William S. Byers, a leading lawyer of the Westmoreland county bar, and the democratic nominee for Congress, was arrested on information containing three separate charges, larceny by bailee and two of lar-

The information was made and sworn to by Jacob Byers, the reputed owner of the lost bonds and money, aged and infirm, and who has been unable to rise for several weeks from what is believed to be his death bed.

The information was made at the instance of old Mr. Byers by Rev. C. R. Ferner, attorney in fact, before Justice of the Peace Lyman Loucks of Alverton. The ball bond was fixed at the sum of \$250,000.

Late tonight Attorney Byers had not se cured bondsmen, but he has promised Constable Randolph that they will be forthcoming at 8 o'clock tomorrow. The bail bond is divided into three parts, \$100,000 for larceny by bailee, for bonds alone; \$100,000 for larceny of bonds and money, and \$50,000

for larceny of bonds and money, and \$50,000 for larceny of money.

Adolph S. Ochs was born in Cincinnati on March 12, 1858. His father was a veteran of the Mexican war, a captain in the federal army during the civil war, and was distinguished as a man of letters in Tennessee, where he resided from 1865 until his death in 1888. Adolph began his death, in 1888. Adolph began his newspa-per experience in 1869, when a lad of eleven as a newspaper carrier and "devil" in "Par-son" Brownlow's newspaper office at Knoxville, Tenn., and in nine years procee ed through all the stages of the profession from "devil" to publisher.
In 1878, at the age of twenty, he became

the publisher and owner of the Chattanooga Times. In 1896 he became the owner of the majority stock of the New York Times and its publisher. In 1901 he purchased the

The Currant Situation. From the Boston Transcript,

The efforts of fruit raisers to sweeten and enlarge the current should not go unnoticed. They are not unnoticed, of course, by those who partake of them, but it really seems whole of a large piece of property at the that an official acknowledgment that these gardeners have come very near to accomplishing that for which they have striven is in order. To pick cherry currants right from the bushes and nibble them from the stem is the way in which one gets pure currant fun, for there is no sugar in the way to interfere with that flavor which only vinegary individuals call "sour." Tart and crisp it is, but sour never. Next to doing one's own picking of the fruit is to have some other reliable hands gather them, put

RESULT OF ARMY BOARD'S DELIB-ERATION.

Construction of New Buildings at Posts Throughout the Country-Improvements at Fort Myer.

A board of officers, consisting of Major

Generals Corbin and Young, Brigadier General Ludington, Lieutenant Colonel J. A. Johnston and Major George Ruhlen, was appointed several weeks ago by the Secretary of War to consider the question of accommodations and shelter for troops returned from Cuba and the Philippine Islands, and to consider generally the construction of new buildings at posts throughout the United States to accommodate the increased garrisons to be stationed thereat. The board submitted its final report to the Secretary of War, who has approved the recommendations submitted by it. The amounts given are those estimated to complete the construction of the various works, and while the allotments are made from the current appropriations it is not expected that the full amount will be expended in all cases during the fiscal year. The allotments are as follows: For the construction of a new post for a

regiment of cavalry at Chickamauga Park,

A new post for a battalion of infantry at Haines Mission, Alaska, \$260,000.

A new post for a regiment of infantry on the military reservation at Monterey, Cal., \$125.000. \$125,000. Three new posts, each to accommodate

two companies coast artillery, at Fort Worden and Fort Casey, Washington, at the entrance to Puget sound, and Fort Rosecrans, near San Diego, Cal., \$120,000 each. Provision for a regiment of infantry at the Presidio of San Francisco, Cal., \$75,000. Enlargement of Fort Lincoln, near Bis-marck, N. D., to accommodate two companies infantry, \$00,000. Enlargement of Fort Meade, S. D., to accommodate headquarters and two squad-rons cavalry, \$90,000.

ecommodate one battalion of infantry, Barracks, quarters, stables, etc., for two batteries light artillery at Fort D. A. Russell, Wyo., \$200,000. Enlargement of Fort Ethan Allen, Vt., to accommodate two squadrons of cavalry and

Completion of Fort McKenzle, Wyo., to

two batteries artillery, \$175,000. Quarters at Fort Myer.

Quarters at Fort Myer, Va., for the officers of two batteries field artillery, provision having already been made for the barracks, stables, gunsheds, etc, for those batteries, \$50,000. Necessary repairs to be made at Fort

Harrison, Mont., to make accommodations at that post for a battalion of infantry, Enlargement of Fort Douglas, Utah, to provide accommodations for headquarters and two battalions of infantry, \$125,000. To begin the reconstruction and improve-

ment of Fort Snelling, Minn., to make vision at that post for the accommodation of a full regiment of infantry and two batteries of field artillery, \$250,00. To complete post at Des Moines, Iowa, to accommodate four troops of cavalry,

To enlarge Fort Lawton, Wash., to accommodate headquarters and one battalion of infantry, \$105,000. To enlarge Fort Wright, Wash,, to accommodate one battalion of infantry,

To reconstruct Fort Ontario, N. Y., so as

one battalion of infantry, \$120,000. to enlarge Fort McKinley, Me., to accommodate one additional company of coast artillery, \$65,000

To continue construction of barracks and ed garrisons at those posts and the officers of the schools of instruction to be established there—at Riley, \$225,000; at Leaven-worth, \$250,000.

To Prepare Plans at Once. The board also took into consideration the construction of necessary buildings at many of the coast artillery posts on the Atlantic seaboard, on the gulf and at the mouth of the Columbia river and of some of the inland posts for cavalry and artillery, where additional buildings are needed to accom-

modate the increased garrisons. It has been decided to proceed at once with the preparations of plans and specifications for the necessary buildings at the new posts and at the posts to be enlarged and to invite bids for their construction, but it is contemplated to place only a part of the work at other places under contract at present, to avoid the large congestion which would result by throwing too much work on the market at many of these places at once. The work that probably will receive first consideration will be the new posts to be established at Chickamauga Park, Haines Mission, Alaska, Monterey and the Presidio, San Francisco, Cal.

THE MISSISSIPPI FLOOD.

Crops Damaged Along Shores to Extent of Millions.

A dispatch from Keokuk, Iowa, yesterday The height of the flood in the Mississippi river was reached today south of here. The river fell an inch and a half at Keokuk today, and the fall will reach southern points by tomorrow. But the rise of a foot more in the vicinity of Canton, Quincy, Lagrange and Hannibal carried the water over thousands of acres previously uninjured. The highest water is between Lagrange and Gregory, where the water on Sunday was well below the rails of the St. Louis, Keo-kuk and Northwestern railway on the bank of the river. A flood is pouring over the tracks today and reaching to the steps of the coaches. The roadbed is good, and trains are delayed only by slow running through water.

The rise today covered more wheat in the shock, which previously stood with its butts in water. Extension of the flooded district increased the total damage, though no very great percentage on the enormous total of millions hitherto accomplished by the flood. The greatest part of the flood tonight is be-tween Gregory, ten miles below here, and Hannibal, sixty-five miles below. Farmers estimates approximating \$6,000,000 damage will not be changed greatly.

The river here is full of debris. South of here the flotsam includes thousands of rab-

bits as passengers on logs, pieces of houses and other wreckage. A dispatch from Peorla, Ill., last night The Illinois river tonight continues to rise, and is now standing at 21.4 feet above low-water mark, the highest mark reached

in ten years. The Western League Base Ball Park is four feet under water, and there will be no chance to play ball here for at least two weeks. Reports from downriver points state that the damage to crops is increasing daily, and has already reached to thousands of dollars.

SHOWER OF PUMICE STONE. Strange Feature of the Recent Storm

in Baltimore. The Baltimore American today says:

William Duffy, 312 Albermarle street, superintendent of docks for the harbor board, took to the city hall yesterday morning a handful of pumice stone, each piece the size of a pea, gathered from about a bushel which fell in his yard during the terrific storm of last Sunday afternoon. Showers of the stone descended in the neighborhood a few minutes after the hurricane had got-

there is no pumice stone in the nei, hood. The fact that pumice is a form of land led some persons to advance the theory that perhaps the shower might have come all the way from the volcano in the lislands of St. Pierre and Martinique, although this does not seem possible, as it was purely a local storm.

The shower was sufficient, however, to somewhat stir up the people of the neighborhood of Albemarle and Fawn streets. Mr. Duffy said last night: "It made the storm more terrible for us. We all thought it was hailing, and looked to our windows and skylights. After the storm my yard was full of the little stones, and walking over them made us still think that it was hall. There are some deep-seated chairs in my yard. After the storm was over I scrape, up several handfuls of the stone. It puzzled me, and I made up my mind to take a sai ple down to the city hall to let those see it who know more

about such things than I do. Major Hut-

ton was surprised at the occurrence, and it

was suggested that it might be worth look-

ing into."

Mrs. Duffy and Miss Duffy both said that the shower gave the people of the neighbor-hood much to talk about yesterday. All seemed to lose sight of the severity of the storm, so engrossing was the strange show-Whether the stone came all the way from Martinique or not, one thing is certain, and that is the Albemarie street yards were not unlike some of the roadways and streets adjacent to the volcanic territory.

BOLD ROBBERS' BIG HAUL. Crack Safe in Railway Office at Port Chester.

The New York Tribune of today says:

One of the most daring robberies that have taken place in this neighborhood in a long time was committed early yesterday morning in Port Chester by a band of masked men who visited the car barns of the New York and Stamford Railroad Company, on the outskirts of the town, and after binding and blindfolding two of the men on guard there, and holding up three others with revolvers, blew open the safe in the company's office with nitro-glycerine and carried away in bags the contents, composed mostly of the money collected during the rush on Saturday and Sunday, There were five of the burglars, and all escaped.

had on hand at the time of the robbery was about \$5,000, but President Charles A. Singer says that the robbers did not get all of this, as a large part of it was locked up in another safe in a car shed adjacent to the office.* Mr. Singer says that until the books are gone over it will not be known exactly how much was taken. He places the amount obtained at \$900, also some checks and valuable papers. It is rumored that the thieves carried away about \$3,000. The robbers kept three of the trolley men

The amount of cash the trolley company

prisoners in the back room for two hours while two of their accomplices drilled the safe and gave it six blasts with nitro-glycerine. Another robber kept guard out side. The explosion shook the b failed to attract the attention of three other men who were at work in an adjoining shed cleaning cars. The safe is a complete

THE BIBLE IN GAELIC. About to Be Issued for Benefit of High-

Gaelic-speaking Highlanders take a very

considerable interest in the efforts made by the general assembly of the Established Church to supply them with a new Gaelic hymnary, but they are much more interested in the revised edition of the Gaelic Bible, just about to be issued, and which is the work of a commission appointed by \$30,000.

To enlarge Vancouver barracks, Wash., to accommodate one full regiment of infantry and two batteries of artillery, for Education in the Highlands and Islands," so long ago as 1881. A complete accommodations for one bat- Bible in idiomatic Scottish Gaelic is really talion of infantry at that post, \$160,000.

To reconstruct Whipple barracks, Ariz., to provide accommodations at that post for no one seems to have set about getting it translated into Gaelic-a language then though there was at that date one-and only one-Gaelic book printed. This Bishop Carsewell's Prayer Book. Finally, quarters at Fort Riley, Kan., and Fort Leavenworth, Kan., to provide for increasin 1801, and after careful revision were published in quarto form in 1826. That edition has been the recognized standard Gaelic classic from that day to this, and has always been acknowledged to adhere more

closely to the original than the authorized

The 1826 edition went out of print in 1880,

nd in 1881 the Society for Propagating Christian Knowledge appointed a commis-sion to prepare a revised and corrected translation. When in 1882 the revision of the New Testament was all but com pleted, the work was interrupted by the education endowment (Scotland) act, re-stricting the operations of the society and setting up in its place "The Trust for Edu-cation." "The trust" was, however, empowered to bear one-half the cost of com-pleting the revision. The commission re-sumed its labors in 1896, and, as has been public in a few days. Some of the changes made on the old version will sound strange to Bible-reading Highlanders; for example, which signifies the body of departed spirits, is retained in the text. In the poetical parts the arrangement in lines has been followed so as to accept the parallelism characteristic of Hebrew poetry. The di-vision of the text into paragraphs has also been adopted, as in the English revised version. There can be no doubt that the whole has been a work of immense labor for the revisers, notably the late Drs. Maclaughlan (Edinburgh) and Clark (Kilmallie), who at first acted as joint editors. In the Old Testament revision Dr. Maclean of Glasgow and Dr. Norman Macleod did much uable work, in connection with Prof. Mackinnon, who acted as secretary. If this edition serves for seventy-six years, as the last has done, and Gaelic speaking continues to decline, it is likely that Dr. Macleod's prophecy that another revision will never be wanted will in all likelihood come true. The great pity is that no arrangements have been made to issue the work except as a large quarto volume, at a price-one guinea-which will place it outside the reach of all but the very rich Gaelic-speaking Highlanders.

Big Fees of Surgeons. From the London Chronicle.

The coronation baronetcy conferred on Sir Frederick Treves will not be the great surgeon's only reward for his successful convoyance of the king "out of danger." For his four weeks' attendance at Sandringham and recovery of the king from typhoid fever in 1871 Sir William Gull received £10,000, as well as the dignity of baronet. Twice this amount was paid to Sir Morell Mackenzie for his treatment of the late Emperor Frederick, and in addithe Red Eagle. The doctors who attended 2.000 guineas each, while Dr. Lapponi's skill in removing a cyst from the pope's side a few years ago was recompensed with #500. But the record in medical fees is held by the ancestor of the present lord mayor of London, Dr Dimsdale, who re-ceived for his journey to St. Petersburg and vaccination of the Empress Catherine II £10,000 as his fee, £5,000 for traveling expenses, and also the title of baron and a life pension of £500 a year.

A Blind Cabinet Officer. From the London Chronicle. The new government just formed by Mr. Tryine in Melbourne is noteworthy as con-

taining the first blind minister since the

death of our own Prof. Fawcett, whom Mr. Gladstone placed in charge of the post office. Like Fawcett, Mr. McKenzie has triumphed over his affliction in a remarkable his ready information a stranger would never suspect that he was deprived of the power of reading. His memory is so good that he can roll off statistics by the yard, and ministers have had to acknowledge themselves corrected by him in the quotation of figures. Mr. Shields is an expremier, and one of the oldest of Melbourne parliamentary hands. His name is principally associated with a divorce law that approximates more closely to Earl Russell's ideals than that of any other British community. Mr. Murray, another member of the new ministerial combination, has been the most pronounced pro-Boer in the Melbourne parliament, but as we are all pro-Boers now he will probably receive an anyments for the installation. manner. ON THE RIVER FRONT

STEAMER LINE HAS FOUR WHARVES, BUT LACKS ROOM.

Bids for Transporting Fort Washington Soldiers to This City-Other Port News.

The managers of the Randall Potomac river line have within the past day or two leased the wharf formerly used by the steamer Geo. J. Seufferle, and the steamer Kent will be berthed there when not in service. The Randail line now has control of four wharves, but at none of them is there room to lay more than two steamers. As all the river business of the company is centered at the 8th street wharf, and four steamers are in this service, it is difficult, at times, to find landing places for the steamers coming and going, and quick changes of dock have to be made by the steamers as soon as they can unload. The four wharves under the control of the Randall company are all widely separated and

are a cause of much inconvenience, but the situation cannot be bettered in any way.

Though the receipts of fresh fish received by the dealers at the 11th street wharf fish houses were light, the demand was also light, and the supply was also light, and the supply was amply sufficient to meet it. Some few fish are coming from the nets on the river, but the catch is The market this morning was steady,

The market this morning was steady, and prices were: For Spanish mackerel, 10c. per pound; black bass, 14c. to 15c. per pound; pan rock, 8c. to 10c. per pound; boiling rock, 12c. to 14c. per pound; white perch, 10c. to 12c. per pound; salmon trout, 4c. to 5c. per pound; sturgeon, 12c. per pound; flounders, 3c. per pound; bluefish, 5c. to 6c. per pound; catfish, 10c. to 12c. per bunch; small white fish, 10c. to 12c. per bunch; gray trout, \$7 to \$8 per barrel, and bunch; gray trout, \$7 to \$8 per barrel, and butterfish, \$4 per barrel. Crabs are selling at figures quoted yesterday.

A new cutter has been put on the dredge Gray Eagle, now employed by the Risley Dredging Company in cutting mud from the

river bottom and pumping it across the ar-senal grounds to the low lands along the James Creek canal. The dredge was of service yesterday, but work will be resumed today. The local steamboat companies have been

asked by the office of Major T. E. True, de-pot quartermaster U. S. A., for bids on the transportation of two companies of coast artillery from Fort Washington, Md., to this city on their way to New London, Conn. In the two companies are eight officers and 218 enlisted men. They will leave Fort Washington for this city Tuesday

Lost Her Head Sail. As the schooner Wm. McDaniel was on

her way to this city Sunday night she was caught in a gale and had her sai's badly torn. The schooner's jib was almost destroyed. She arrived here yesterday evening, and will load for down-river points. The tug Wm. H. Yerkes, jr., is cruising about in Chesapeake bay near the capes of

DR. BARNAULT'S EXPERIMENTS Paris Physician Inoculates Himself

With Tuberculosis Germs. A dispatch from Paris yesterday says Dr. Garnault, who, on June 17, inoculated himself with matter taken from a consumptive cow in order to disprove Prof. Koch's theory that it is impossible for human beings to catch tuberculosis from cattle, has written to the Temps announcing that the inoculation has produced tuberculosis tumors. He says this proves that

man is quite as susceptible to bovine tu-berculosis as any other animal. He again inoculated himself July 15, by inserting under the skin of his left arm a fragment of tubercular matter from the liver of a disease cow. The second inocula-tion was performed because he feared that the tuberculosis of the skin resulting from the first would remain too long superficial. The second form of inoculation when performed on a guinea pig inevitably causes death within eight weeks. This will give an idea of the risks Dr. Garnault is run-

The English Auctioneer. From the London Chronicle.

At the Crabbet sale of Arab horses on

Saturday an American lady, who was among the guests, expressed great contempt for the quiet method of Mr. Tattersall, the auctioneer. "I'd like you to hear one of our auctioneers," she said. "He would be an orator; and he would make those prices jump. That man doesn't know how to jump. That man doesn't know how to talk." It was explained to her that the auctioneer knew that these tight-lipped, watchful bidders had examined the knew as much about horses as he did, and knew just how far they were going. He knew, too, that at the first touch of oratory they would relight cigars and go for a stroll till he had finished. In this particular matter, as the American lady finally ad-mitted, the English method is quicker, honester, and more effective.
